

# DOCTOR OF NURSING PRACTICE - FAMILY NURSE PRACTITIONER FNP (ONLINE AND ONE ON-SITE BOOTCAMP)

Department: Nursing (<https://catalog.bradley.edu/graduate/education-health-sciences/nursing/>)

This (BSN entry) 71-semester hour specialty track in the DNP program prepares licensed registered nurses with a BSN as family nurse practitioners (FNP) at the doctoral level. The goal of the program is to prepare graduates for advanced practice nursing with individuals and families throughout the lifespan and across the health continuum. Students complete a total of 1000 hours of clinical in various population-focused and/or specialty areas supervised by qualified preceptors. A DNP project must be completed to fulfill degree requirements. Upon completion of the program, graduates are eligible to write the FNP specialty certification examination administered by the American Nurses Credentialing Center (ANCC) or the American Academy of Nurse Practitioners (AANP).

## Admissions

1. Applicants must have a BSN degree from a CNEA, ACEN, or CCNE accredited nursing program.
2. Proof of a current unencumbered nursing license.
3. A nursing grade point average of 3.0 based on a 4.0 scale.

\*Applicants with deficiencies in the requirements will be evaluated on an individual basis.

## DNP Family Nurse Practitioner – 71 Semester Hours (Online)

Code	Title	Hours
BIO 526	Advanced Pathophysiology	3.0
ECO 605	Health Care Economics & Finance	3.0
NUR 600	Advanced Health Assessment	3.0
NUR 651	Advanced Pharmacology I	3.0
NUR 676	Primary Care Acute Conditions Across the Lifespan I	6.0
NUR 677	Primary Care Chronic Conditions Across the Lifespan II II	6.0

NUR 843	DNP Project III	3.0
NUR 844	DNP Project IV	3.0
Total Hours		71

## Comprehensive Assessment

All students are required to take a comprehensive assessment prior to graduation.

## DNP Project

All students in the DNP program are required to plan, implement, evaluate, and disseminate a DNP project. The DNP project is guided by evidence-based practice or quality improvement processes focused on system or population changes that positively influence healthcare outcomes through direct or indirect patient care.
